SUMMARY

Principal DevOps/SRE Engineer with 9+ years building and scaling cloud platforms for fintech, banking, media, and enterprise clients. Founded and led DevOps practices from zero at multiple organizations. Expert in Kubernetes, CI/CD automation, observability, and large-scale cloud migrations (on-prem to AWS/OCI). Currently leading platform modernization and AI-driven operations initiatives at Oracle. Pursuing Master's in Artificial Intelligence.

TECHNICAL SKILLS

Programming: Python, Java, NodeJS, Shell, PL/SQL

Cloud: AWS (ECR, EKS, ECS, EC2, S3, RDS, Lambda, DynamoDB), OCI DevOps

DevOps/SRE: Jenkins, GitHub Actions, Docker, Kubernetes, Terraform, Ansible, Artifactory, SonarQube, Snyk

Observability: Dynatrace, Grafana, CloudWatch, Kibana

Mobile CI/CD: Fastlane (iOS/Android)

AI/ML: Log anomaly detection, predictive analytics (in progress)

Certifications: Oracle DevOps Certified

PROFESSIONAL EXPERIENCE

Principal DevOps Engineer | ORACLE

Apr 2025 – Present

- Leading migration of enterprise SCM from ClearCase to Git, developing custom APIs and a GUI frontend (Flet) to support the transition for internal teams.
- Designing and automating CI/CD pipelines using Jenkins, Ansible, Python, PL/SQL, and Shell across 20+ services.
- Building an AI-powered log analyzer for anomaly detection in CI/CD processes (detection, error prediction, and automated remediation recommendations).
- Reduced CI/CD execution times by 35% through pipeline architecture redesign.
- Implemented repository governance, branch strategy, and workflow automation using Visual Builder Studio.

DevOps & L2 Support Engineer | Santander Bank USA (TCS & Cervantes Group)

Feb 2024 – Apr 2025

- Provided L2 support and incident response across 20+ production services on AWS and on-prem infrastructure, operating within strict SLA targets.
- Performed root-cause analysis using Dynatrace, Grafana, Kibana, CloudWatch, and Lambda to ensure system reliability.
- Developed Python automation workflows for diagnostics, reducing manual troubleshooting effort.

Senior DevOps Engineer | ALBO

Oct 2023 – Jan 2024

- Migrated 15+ CI/CD pipelines from Bitbucket to Jenkins, standardizing engineering workflows across the organization.
- Implemented high-availability infrastructure using Kubernetes, Docker, EKS, ECS, and ECR.
- Integrated Terraform IaC and GitHub Actions into multi-service deployment processes.

Head of DevOps → Middleware Development Manager | MACROPAY

Jun 2022 – Oct 2023

- Led a team of 15 engineers across DevOps and middleware development, defining priorities, processes, and technology stacks.
- Defined and scaled DevOps workflows for 30+ microservices across mobile, serverless, MVC, and middleware systems.
- Managed AWS releases using Lambda, EKS, ECS, EC2, S3, RDS, and DynamoDB.
- Automated pipelines with Jenkins and Terraform, reducing release time from hours to minutes.
- Oversaw platform administration for Firebase, Apple Connect, and Google Play Console.

DevOps Lead | TV AZTECA DIGITAL

Oct 2021 – Jun 2022

- Built CI/CD workflows for 4 iOS and Android applications using Fastlane, AWS, GitHub Actions, and SonarQube.
- Increased mobile release frequency from weekly to daily through pipeline automation.
- Automated multi-pipeline deployments using Jenkins with SmartSheet triggers.
- Implemented branch protection policies and build automation using Python and NodeJS.

Tester & Deployer → DevOps Area Founder & Developer Lead | AIONTECH

Jul 2015 – Oct 2021

- Founded and established the DevOps practice from scratch, implementing Docker, Jenkins, Artifactory, and SonarQube in AWS.
- Delivered full-stack platforms for 10+ clients across banking (HSBC, InvestaBank), retail, and government sectors.
- Developed backend services using Java EE, SpringBoot, Camel, Hibernate, and JPA.
- Built Selenium automation frameworks for QA workflows.

EDUCATION

Master's in Artificial Intelligence | UNIR – Universidad Internacional de La Rioja | In Progress

B.S. Computer Engineering | IPN – ESIME Culhuacán | 2020

Digital Systems Technician | IPN – CECyT 9 | 2015
